

GME Program Coordinator Excellence Award

The GME Program Coordinator Excellence Award honors and recognizes the crucial role that program coordinators play in the success of a residency/fellowship program. The ACGME congratulates the recipients of the 2017 GME Program Coordinator Excellence Award.

Dennis E. Henson

Urology
VCU Health
Richmond, VA

Nominators had this to say:

“I have worked with Denny for the past several years since I became a coordinator with the Division of Plastic and Reconstructive Surgery and Denny has been my go to resource for everything GME related from day one. Not only is he extremely knowledgeable in his position and with the policies but he is a wonderful teacher.”

“Urology was one of the early NAS adapters. It was most helpful to have a coordinator who was proactive and an independent thinker. Denny was able to provide examples and ideas for evaluations and committee structure which helped to move the program forward in unknown territory.”

“I think all of the residents at our program would agree that Mr. Henson is our first resource for questions about any matters regarding resident education, credentials, documentation, or ACGME requirements. Mr. Henson's knowledge is extensive, but much more impressive is his ability and willingness to find answers to our questions. I go to Mr. Henson with questions about documentation, educational requirements, login information, etc. Often times, he has already been working on what I need before I ask.”
